YEAR 2 semester 1											
Module	**Code**	**ECTS**	**v/k**	**Teaching methods**	**Hours p/w**						
Specialization phase I	LGR013M10	10	**v**	**Individual (supervised)**	**variable**	This specialisation phase may consist of a Internship in a research environment, participation in one of the programmes of the national research schools, an extra research seminar or methodology course. Assessment consists of a written paper (called tutorial) and participation in a Summer or Winter Seminar					
Specialization phase II	LGR014M10	10	**v**	**Individual (supervised)**	**variable**	This specialisation phase may consist of a Internship in a research environment, participation in one of the programmes of the national research schools, an extra research seminar or methodology course. Assessment consists of a written paper (called tutorial) and participation in a Summer or Winter Seminar					
Thesis Preparation Class	LGR017M05	5	**V**	Lectures, seminars, individual meetings	**variable**	The TPC will consist of meetings at which possible topics will be discussed. Starting in semester week 14 at the beginning of December, thus when all students doing an internship should have returned, 7 meetings will be held. The TPC will focus on how to design one's own ReMa thesis project and write a ReMa thesis research proposal. Attention will also be paid to the development of research ideas, formulation of research proposals, strategies for doing research, research techniques, and problems and pitfalls when doing thesis research.					
Bridging Horizons Class	LGR016M05	5	**v**	Lectures, seminars, individual meetings	**variable**	The BHC, will start in semester week 14 at the beginning of December. It will continue with two intensive weeks in January with assignments on research and employability. Working in teams, the students will carry out a survey on the labour market for graduates; on upcoming research programmes in Europe; research projects in policy oriented institutes in the Netherlands and abroad. Students will also participate in organising an event, a debate, or a questionnaire, an interview, prepare a project, prepare for job interviews. Part of the class will be teached as an intensive 'winter school'.					
Total ECTS tested		30									
YEAR 2 semester 2											
Research Master Thesis	LGR998M30	30	**v**	**Individual (supervised)**		840 hours of research in the field of specialisation, and writing a thesis of approximately 20-30.000 words					
Total ECTS tested		30
